This year, as COG has celebrated its 35th anniversary, we have heard from members, employees, partners and friends about what COG means to them.

Memories and reflections of the past 35 years have culminated in three 35th anniversary celebratory products. To view the content, click the images below:

- **A video featuring the voices of our members, stakeholders and employees from across Canada and around the world**
- **A special anniversary edition of COGnizant Magazine that includes a 20-page timeline of COG and the industry from 1984 to present**
- **A historical slideshow highlighting COG’s people then and now**

The successes and achievements of COG’s outstanding people, past and present, are captured within this work.

Throughout the year, many of our nuclear industry colleagues shared their memories and messages of congratulations on video and through pictures. These came in from across Canada and around the world. The submissions reflect not simply the impact that COG has had over 35 years but also the meaningful global connections formed along the way.

Thank you to all those who shared their submissions and for your contributions to COG’s history books.

As we look back on 35 years, we also look forward to solving the next generation of CANDU challenges, pursuing new opportunities and making even more history as we strive toward continued **excellence through collaboration**.
