# Reuters covers NEA-COG MoU

***The collaboration agreement is another step in industry cooperation to achieve nuclear excellence***

In October, COG signed a Memorandum of Understanding (MoU) with the Organization for Economic Co-operation and Development's Nuclear Energy Agency (NEA) to "co-operate in research and activities related to pressurized heavy water reactor (PHWR) technology ... to advance the scientific and technical knowledge base for PHWRs and foster co-operation amongst research organizations that support PHWRs."
